

Designing Purposeful & Integrative Learning

What is the overarching question or the context that makes this assignment relevant for students?

Integrative assignment goal: create an assignment that requires students to integrate one facet of college readiness with key course or activity outcomes in order to demonstrate understanding

Questions to consider:

1. Which facet of college readiness do you and your partner agree would be an appropriate starting-point for your students?
2. What outcomes from your two areas lend themselves to an assignment where students practice a particular aspect of college readiness?
3. How will you invite students to reflect on their learning in relation to integration and college readiness?

Make a poster that includes the actual assignment, the overarching relevant question or context, and the outcomes students will be integrating

College Readiness (shared)

A facet of college readiness that is appropriate for your students

Course/Activity Outcome A

A key outcome:
big ideas
skills
methods
attitudes

Course/Activity Outcome B

A key outcome:
big ideas
skills
methods
attitudes
