

Chem 101/Math 110 Learning Community Project

As part of this learning community you will have to:

- 1) Complete an assignment that will count for both classes.
- 2) You will be required to attend one STEM event.

1) The Assignment

You will be required to develop an in-depth test question (word problem) that combines the material for chemistry 101 and math 110. It is your assignment to integrate the course material. A draft problem will be due **MARCH 19th**.

(worth 20 pts)

The final question is due **APRIL 21st**

Five of the best questions will be chosen and The final assignment (worth 10 pts) will be presented to class the week before the final. One question of the five will be chosen and placed on the final (10pts).

2) STEM events to be announced in class. Write a ~1pg summary of the event.
(10 pts)
